How Kitchen Respraying Works — Step by Step

01

The first two days, the doors are removed, cleaned and prepped for Spraying. These are the most visible parts of your kitchen and deserve significant attention to give it a perfect finish.

02

On the third day, we prepare the cabinet frames for spraying with careful cleaning and sanding—keeping downtime to a minimum so you can get back to normal sooner.

03

On the final day, we carefully refit all the doors. If needed, we can also install new handles—filling and adjusting for any shape or size.

We use a premium, specially formulated paint that delivers an ultra-smooth finish and makes everyday cleaning effortless.

The Secret's in the Paint

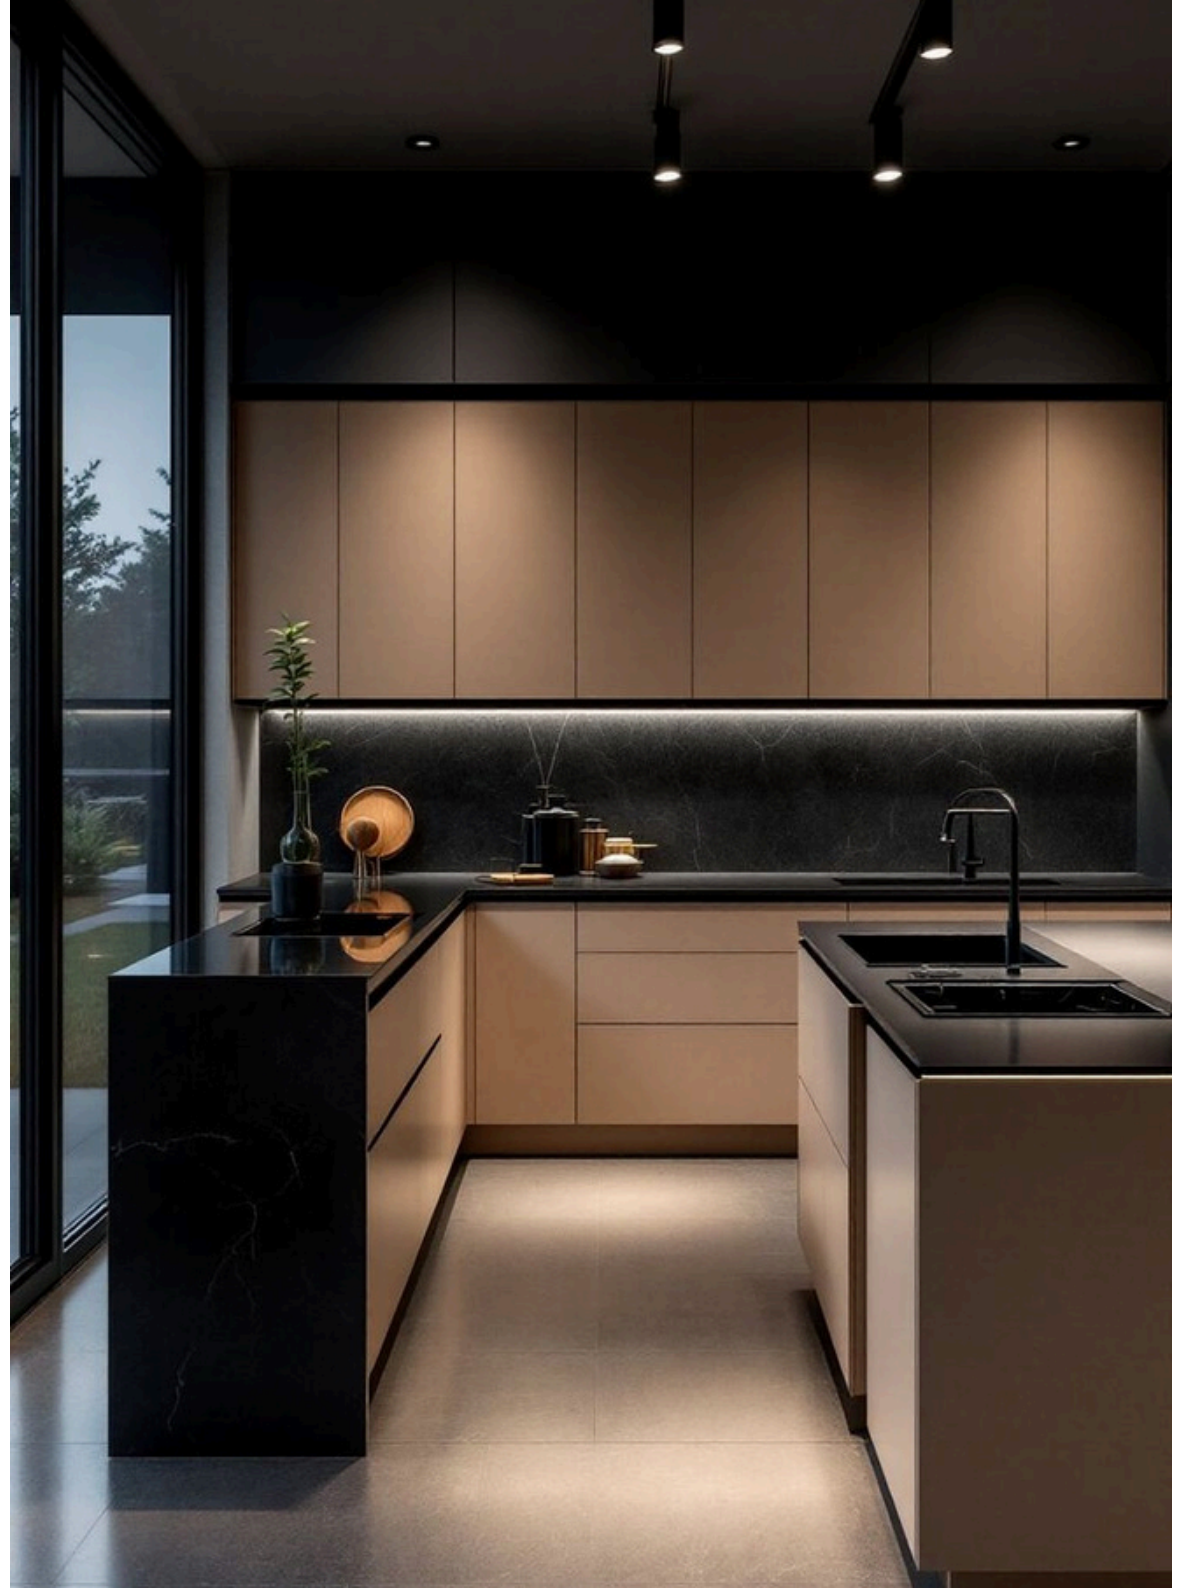

Choosing the right paint matters—and **KitchenRespray.com** offers the smartest choice for your kitchen. As the only company in Ireland with this exclusive formula, our paint is specially developed for Irish homes, delivering unbeatable durability and a flawless, factory-quality finish. Designed to withstand the demands of daily kitchen life, it keeps your space looking beautiful for years. Trust KitchenRespray.com for a premium, tailor-made solution built to last.

Worktop & Tiles Respray

At **All Surface Respray**, we believe in using only the highest-quality materials. After years of refining our formulas and techniques, we now offer Ireland's most durable and reliable countertop resurfacing solution.

Whether it's a small chip, a burn, or general wear and tear, more and more landlords, businesses, and homeowners are choosing to repair instead of replace.

Avoid the mess, stress, and expense of ripping out tiles, disconnecting appliances, and plumbing work. Respraying is quicker, cleaner, and far more cost-effective.

Worktop Wrap

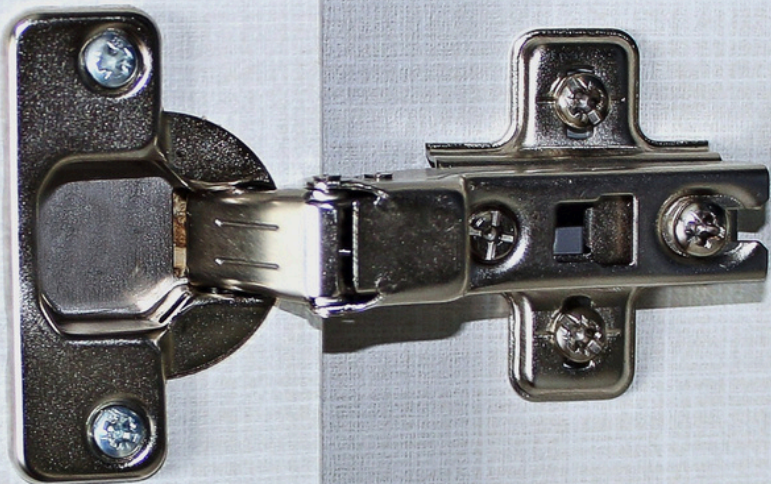

With All Surface Wrap, transforming your kitchen has never been easier. Our hassle-free, cost-effective process wraps directly over your existing worktop—no mess, no need to coordinate plumbing, gas, or tiling services. Just a fresh new look, without the disruption

A Circular Economy Company

Our **Commitment to Sustainability**

At **All Surface Respray**, we believe in giving new life to existing materials rather than sending them to landfill. By respraying and wrapping kitchens, bathrooms, furniture, and surfaces, we reduce waste, minimise environmental impact, and extend the life of perfectly good materials. Instead of replacing cabinets, worktops, or fittings, we transform what's already there—cutting down on unnecessary manufacturing, transportation, and disposal. This sustainable approach helps conserve resources, reduces carbon emissions, and supports a more responsible, circular economy.

Less waste. Less cost. More impact.

Choose smarter. Choose circular. Choose All Surface Respray.
